

# Scientific and Technical Issues for Environmental Management of Deep-Seabed Mining

The Deep-Ocean Stewardship Initiative (DOSI) invites you to a side-event at the International Seabed Authority 24<sup>th</sup> Session:

Wednesday 18th July 2018

8:45 - 9:45 AM

Delegates Dining Room, ISA Headquarters, Jamaica

ENJOY A FREE BREAKFAST BUFFET

## **Brief introduction To DOSI**

### **Deep-Sea Fundamentals**

Dr Diva Amon

Natural History Museum, London, UK

### **New Scientific Data From Exploration Contract Areas Relevant To The Management Of Deep-Sea Mining**

Dr Adrian Glover

Natural History Museum, London, UK

### **Why Do We Care About The Deep Ocean And What Are Its Vulnerabilities?**

Dr Lisa Levin

University of California, San Diego, USA

### **Strategic Environmental Goals And Objectives For Deep-Sea Mining**

Dr Anna Metaxas

Dalhousie University, Canada

### **Translating Deep-Sea Science To Policy**

Kristina Gjerde J.D.

International Union for Conservation of Nature (IUCN)
